

# CASH ATTACK

Win It ALL...

...or nothing!

# Prizes up to \$1250!

## What is Ca\$h Attack?

Cash Attack is a great new game show that has taken the characteristics of two well-known game shows, *Let's Make a Deal* and *Deal or No Deal*, and combined them to create an innovative and entertaining event that everyone in the audience has the chance to be part of. Five rounds will be played, with total winning possibilities summing up to \$1,250.00.

## How Doe\$ the \$how Work?

Contestants are chosen from the audience in a *Let's Make A Deal* fashion. Everyone is asked to stand, as our host calls out statements that pertain to them such as whose birth date ends in an odd number, or whose last name has more than three vowels in it. The last person standing is the contestant who gets the chance to play for the cash. Our set consists of a drapery backdrop and lighted shadow boxes, which hold the 21 cases the contestant gets to choose from. These cases have dollar amounts ranging from .01 to \$250.00. The round is played just like the TV classic *Deal or No Deal* and features its very own energetic host and banker. The set of Cash Attack comes complete with a state-of-the-art sound system and lighting effects and can be adapted to any setting inside or out!
