

# Larry Volz: Mentalism

Have you ever been completely entranced by a man who looks deeply into your eyes... and then tells you things about yourself that no one could possibly know?

What if that man could cause objects to fall over, fly across the room or even shatter a wine glass using only the power of this mind?

Larry Volz has performed for television, cruise ships, colleges and in theaters around the world. He has won national awards for his on-stage mysteries and is an accomplished hypnotist as well as psychic entertainer.

Your audiences will gasp with amazement as he read your innermost thoughts. Your friends will hold their bellies as they laugh at his off-the-wall sense of humor. You will shake your head in disbelief as he bends spoons and causes objects to move on their own. And everyone will hang on the edges of their seats as he puts his mental abilities to a very dangerous test with his own version of Russian roulette.

His mind-bending shows are perfect for intelligent audiences who are looking for something exciting, unusual and thought-provoking.
