

# Hypnosis for the **Curious**

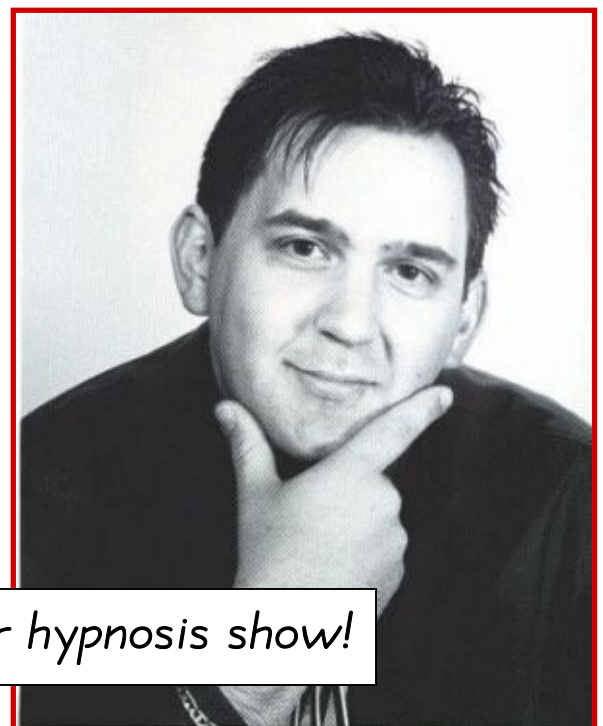

*Have you ever wondered if what is happening on the stage at a hypnosis show is real?*

*...Well see for yourself. This presentation will explain how hypnosis really works. Hypnotist, Keith Karkut will show what is happening to the people on stage through the use of different examples and mind techniques. In fact, one way or another, most people in the audience of this presentation will get a chance to experience hypnosis for themselves.*

*Sit back, relax, and experience the true powers of your mind. As an added bonus, Keith will give all participants a "gift of the mind" that they can take with them. This gift can allow them to be more focused when studying, perform better on the field or relax better when needed. The audience will learn that the way they feel will affect the total outcome of their everyday lives.*

*There are 2 ways that this program can be presented:*

- 1. As an accompaniment to the hypnosis show (i.e. - book Keith's hypnosis show & then later that night or the next day book this tell all program)*
- 2. As a program where Keith gives a brief hypnosis demonstration & then does a brief explanation into what's really happening on stage.*

*Get a backstage pass to your hypnosis show!*
