13th Annual Hot 100 Unsigned Artists

Given the rise of female singer/songwriters on the indie scene, this year's alphabetical list of Southern California's top 100 unsigned artists has more spice

to it than ever. With the industry stuck in transition mode, this list of hotties could contain the music biz's next breakthrough stars. Those determining the results of this year's poll include Music Connection staffers, journalists, club bookers, A&R scouts, publicists and other industry professionals. From world music to pop, this list gives bookers, managers, music supervisors, and A&R reps the opportunity to contact Southern California's hottest acts.

Compiled by Bernard Baur, Michael Mollura and Will Bigham
