## REQUIREMENTS

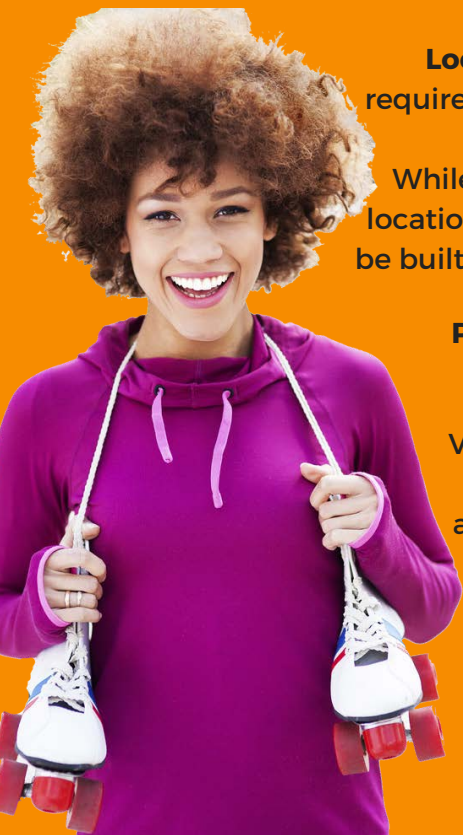

**Location:** A large, completely flat surface is required for the rink to be placed on. Grass and uneven parking lots are not practical. While the rink size can be adjusted to fit your location, the larger the better. The rink size can be built to fit up to a 40'x60' area (2400 sq feet).

**Power:** Four 20 Amp Circuits are needed.

**Volunteers:** 6 Volunteers are needed. Volunteers must be able to lift 50 lbs and will be responsible for help with load-in and out, giving out and collecting skates, and "skate security."

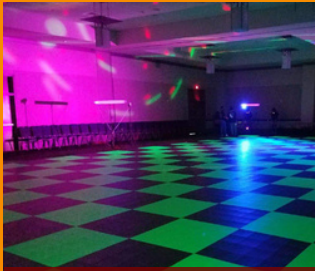

**Time:** Set-up and tear-down take up to 2-3 hours each.

**Tables:** Please provide four tables.

# FAQ's

**Q: Can we do the event indoors/outdoors?**

**A:** Yes, the rink can be used either indoors or outdoors, weather permitting and surface permitting (the rink must be on a hard, flat surface. Grass is not acceptable).

**Q: Will the rink leave marks or ruin the floor if it is indoors?**

**A:** A plastic tarp will be laid under the Roller Rink panels to prevent scratching of the floor surface. To ensure best results, a completely smooth and flat surface is necessary.

**Q: What about the skates?**

**A:** Approximately 75 pairs of skates will be provided. Additional skates and children's sizes available upon request.

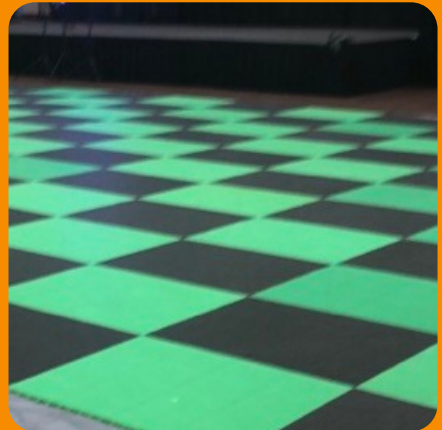

**Q: What is expected of the volunteers?**

**A:** Volunteers are requested to help load-in, load-out, and "skate security" to make sure all skates are returned.
